

NIZAMUDEEN N

Frontend Engineer | React.js | Next.js | JavaScript

workfornizam@gmail.com | +91 9526642245 | Dubai, United Arab Emirates | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend Engineer with 2.8+ years of professional experience building scalable, responsive, and high-performance web applications using React.js, Next.js, and JavaScript. Experienced in developing reusable UI components, integrating REST APIs, implementing Figma designs, state management, authentication, and performance optimization. Strong hands-on experience with Next.js SSR, SSG, ISR, Tailwind CSS, Redux Toolkit, React Query, Git, CI/CD, and responsive web development. Experienced in collaborating with UI/UX designers, backend developers, QA, and product teams in Agile environments.

SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Angular

React & State Management: Redux Toolkit, React Query, Context API, React Hooks

UI & Styling : Tailwind CSS, Material UI, Bootstrap, Responsive Design, Figma

Next.js & SEO: App Router, SSR, SSG, ISR, Dynamic Routing, SEO, Metadata

Performance: Core Web Vitals, Code Splitting, Lazy Loading, Dynamic Imports, Bundle Optimization

Backend & APIs: Node.js, Express.js, REST APIs, API Integration, Authentication

Databases: PostgreSQL, MongoDB

Deployment & DevOps: Vercel, Netlify, Render, GitHub Actions, CI/CD

Tools: Git, GitHub, Postman, VS Code

AI-Assisted Development: ChatGPT, Claude, GitHub Copilot, Antigravity

Methodologies: Agile, Scrum, Code Review

PROFESSIONAL EXPERIENCE

Software Engineer – Frontend, Solwyz Technologies

Jun 2024 - Aug 2026 · Trivandrum

- Engineered 15+ reusable React.js components with TypeScript, reducing feature development time by 35% while ensuring consistent UI standards across multiple products.
- Built SEO-optimized Next.js applications using SSR, SSG, and ISR, improving Lighthouse scores, Core Web Vitals, and organic search visibility.
- Developed responsive, pixel-perfect user interfaces from Figma using Tailwind CSS and Bootstrap, ensuring cross-browser compatibility and responsive design.
- Optimized application performance through code splitting, lazy loading, dynamic imports, and bundle optimization, reducing bundle size by 30%.
- Integrated REST APIs, authentication, payment gateways, and analytics services, implementing robust error handling and efficient frontend-backend communication.
- Leveraged Claude, ChatGPT, GitHub Copilot, Cursor, and Antigravity to accelerate development, debugging, refactoring, and engineering productivity.
- Deployed and maintained production applications using Vercel, Netlify, and Render with CI/CD pipelines, collaborating closely with UI/UX, backend, QA, and product teams in Agile environments.

- Developed responsive and reusable React.js user interfaces from Figma designs, delivering pixel-perfect implementations across desktop and mobile devices.
- Integrated REST APIs with React.js applications, implementing state management, asynchronous data handling, and robust error handling to improve application functionality and user experience.
- Collaborated with UI/UX designers, backend developers, and QA teams in an Agile environment, participating in code reviews, sprint planning, and delivering production-ready features on schedule.

PROJECTS

Admin Analytics Dashboard · React.js · JavaScript · Tailwind CSS · REST APIs · Recharts · Context API

- Built a production-ready admin dashboard featuring real-time analytics, KPI widgets, interactive charts, and dynamic data tables.
- Implemented role-based access control (RBAC), advanced search, filtering, sorting, and pagination, efficiently handling 10,000+ records.
- Optimized application performance using lazy loading, code splitting, memoization, and virtualization, achieving sub-2-second initial load times and smooth user interactions.

SEO-Optimized Business Website · Next.js · JavaScript · SSR · SSG · ISR · Tailwind CSS · App Router

- Developed a high-performance business website using Next.js App Router, SSR, SSG, and ISR, achieving 95+ Lighthouse SEO and sub-1-second TTFB.
- Implemented dynamic routing, metadata generation, sitemap, and robots.txt to improve technical SEO and search engine visibility.
- Built responsive and accessible user interfaces with cross-browser compatibility and optimized web performance.

EDUCATION

MERN Stack Development, Luminar Technolab

Apr 2023 - Nov 2023 · Kochi, ndia

B.Sc., Botany, Catholicate College, Pathanamthitta

Jan 2018 - Jan 2021 · Pathanamthitta, India
