PROFESSIONAL SUMMARY

Frontend Engineer with 2+ years of production experience building high-performance web applications using React.js, Next.js, JavaScript, and TypeScript. Specialized in scalable component architecture, SSR/SSG, and Core Web Vitals optimization. Skilled in translating Figma designs into pixel-perfect, responsive user interfaces, integrating REST APIs, and delivering production-ready applications using modern frontend development practices and AI-assisted workflows in Agile environments.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES2023+), Angular, HTML5, CSS3

State Management: Context API, Redux Toolkit, React Query

UI & Styling : Tailwind CSS, Material UI, Bootstrap, Responsive Design, Figma to Code

Performance: SSR, SSG, ISR, Core Web Vitals, Code Splitting, Lazy Loading

Backend/APIs: Node.js, Express.js, REST APIs, API Integration

Databases: MongoDB, PostgreSQL

Deployment: Vercel, Netlify, CI/CD, GitHub Actions

Tools: Git, GitHub, Postman, VS Code, Cursor IDE, Figma

AI Tools: Claude, ChatGPT, GitHub Copilot, Cursor, Antigravity

PROFESSIONAL EXPERIENCE

Software Engineer – Frontend, Solwyz Technologies

Jun 2024 - Present · Trivandrum

- Engineered 15+ reusable React.js components with TypeScript, reducing feature development time by 35% while ensuring consistent UI standards across multiple products.
- Built SEO-optimized Next.js applications using SSR, SSG, and ISR, improving Lighthouse scores, Core Web Vitals, and organic search visibility.
- Developed responsive, pixel-perfect user interfaces from Figma using Tailwind CSS and Bootstrap, ensuring cross-browser compatibility.
- Optimized application performance through code splitting, lazy loading, dynamic imports, and bundle optimization, reducing bundle size by 30%.
- Integrated REST APIs, authentication, payment gateways, and analytics services while implementing robust error handling and efficient frontend-backend communication.
- Leveraged Claude, ChatGPT, GitHub Copilot, Cursor, and Antigravity to accelerate development, debugging, and refactoring, improving engineering productivity.
- Deployed and maintained production applications on Vercel and Netlify with CI/CD pipelines, collaborating closely with UI/UX, backend, QA, and product teams in Agile environments.

- Developed responsive and reusable React.js user interfaces from Figma designs, delivering pixel-perfect implementations across desktop and mobile devices.
- Integrated REST APIs with React.js applications, implementing efficient state management, asynchronous data handling, and robust error handling to enhance user experience.
- Collaborated with UI/UX designers, backend developers, and QA teams in an Agile environment, participating in code reviews, sprint planning, and delivering production-ready features on schedule.

PROJECTS

Admin Analytics Dashboard · React.js · JavaScript · Tailwind CSS · REST APIs · Recharts · Context API

- Built a production-ready admin dashboard featuring real-time analytics, KPI widgets, interactive charts, and dynamic data tables.
- Implemented role-based access control (RBAC), advanced search, filtering, sorting, and pagination, efficiently handling 10,000+ records.
- Optimized performance using lazy loading, code splitting, memoization, and virtualization, achieving sub-2s initial load times and smooth user interactions.

SEO-Optimized Business Website · Next.js · JavaScript · SSR · SSG · ISR · Tailwind CSS · App Router

- Developed a high-performance business website using Next.js App Router, SSR, SSG, and ISR, achieving 95+ Lighthouse SEO and sub-1s TTFB.
- Implemented dynamic routing, metadata generation, sitemap, and robots.txt to improve technical SEO and search engine visibility.
- Built responsive, accessible user interfaces with cross-browser compatibility and optimized performance.
